

## Dear Fellow Dog and Cat Lover,

Did you know that the health of your pet's mouth directly affects overall health, quality of life and even behavior? A healthy mouth is the gateway to a healthy pet. This painful, progressive disease affects 80% of dogs and cats by the age 1.5 years.

Perhaps most surprising to learn is that your pet's mouth acts and reacts exactly like yours, requiring annual examination and dental cleaning followed by daily home dental care. The critical difference is that animals suffer in silence and cannot take care of themselves.

Daily use of healthymouth™ and professional cleaning work together as a comprehensive dental care program. Definitely the best investment you will ever make for your best friend. I know first hand, as I almost lost my best friend from dental disease.

I adopted my Shih-Tzu, Ping-Pong, from a rescue close to fourteen years ago while living in Paris. We travelled the world together. But I missed something so important that it could have shortened the life I could not imagine having in mine. Looking back now all the signs were there. She had bad breath for years, but I didn't sense that she was in pain. When she started slowing down I figured it was a result of aging. I never thought to look in her mouth.

I received my wake-up call when Ping-Pong was seven years old. My new veterinarian, back in the states, looked into Ping-Pong's mouth and was aghast. If not treated, the bacteria would soon access her blood stream, and likely result in a premature death. I was devastated and felt very guilty. I worried that she would never be the same.

After the dental and extractions she wasn't the same. She was a new dog! I knew this was only the first step. To keep her mouth free of disease I would have to partner with my veterinarian and take an active role in her daily dental care. My mission became to not only create a more effective, safer and simpler daily solution for all pets, but to educate their owners about this often over looked critical part of pet care. And healthymouth™ was born.

Today, Ping-Pong, is my personal testimonial to its amazing results. At the age of almost fourteen, drinking healthymouth™ every day in conjunction with annual veterinary cleaning (yes, even at these senior years, performed under anesthesia), she has little or no plaque, healthy gums, and a pain-free mouth. She has more energy, a stronger immune system and is in far better overall health than at age seven. I know it's a DIRECT result of the health of her mouth. Ping-Pong is my success story. Please share yours. Email me at [Karen@healthymouth.com](mailto:Karen@healthymouth.com)

Dental Care that Dogs and Cats Drink™

For Cats

For Dogs

## The Mouth:

*Window to Your  
Pet's Overall Health*

Veterinary dental cleaning combined with 100% free of alcohol, artificial or synthetic ingredients, healthymouth™, at home, provides a comprehensive oral care program for your dog or cat.

Serious Science. Safe. Simple™

## Why Use healthymouth?

We have taken home oral health care to a new level offering the most scientifically proven, safe and simple to use dental care products available.

### and if that isn't reason enough...

- healthymouth™: The only dental water additive to receive the Veterinary Oral Health Council® Seal of Acceptance for Plaque Control in DOGS and CATS. "Regular use of products carrying the VOHC® Seal of Acceptance will reduce the severity of periodontal disease."
- healthymouth™: Patented formulas clinically proven to control the plaque leading to inflammation and gum disease without chemical agents.
- healthymouth™: Cleans teeth and gums and reduces germs and bacteria that if left untreated, can enter the bloodstream causing damage to vital organs and even pre-mature death.
- healthymouth™: Recommended by leading veterinary dentists and generalist veterinarians.
- healthymouth™: Long-term use provides continuous improvement in mouth and overall health.
- healthymouth™: Effective at all life stages: preventative dental care for puppies and kittens; slows progression for mid-life dogs and cats; improvement for seniors with even severe dental disease.
- healthymouth™: Free your best friend from years of pain - don't let your dog or cat suffer in silence.
- healthymouth™: 100% free of artificial, synthetic ingredients and alcohol. No sugar, no sodium, no fat, no calories.
- healthymouth™: Safe, digestive friendly, dogs and cats love the natural flavorings.
- healthymouth™: Make dental care as easy as giving routine hydration.
- healthymouth™: Eco-friendly company using recycled packaging. Made in the USA.

...gives YOU the ability to help your dog or cat live a longer, healthier, and happier life.

A portion of every sale will go to AHOPE for Children. An Orphanage caring for HIV infected orphans in Addis Ababa, Ethiopia. To learn more or to donate, please visit: [www.ahopeforchildren.org](http://www.ahopeforchildren.org) or [www.healthymouth.com](http://www.healthymouth.com)

## Directions:

For a 20 oz bowl of water, add three-quarters of a teaspoon of concentrate.

For a 50 oz bowl of water, add one teaspoon plus one half teaspoon.

Easiest method is to prepare a larger quantity to keep on hand. Mix one tablespoon PLUS one teaspoon of concentrate to one gallon container of water. Keep tightly closed. Keep in refrigerator only if pet likes colder water, but out of direct sunlight. Can stay in gallon for up to two weeks. Shake before use. Do not worry if clumps of ingredients will not mix. This is normal as we do not filter product. Then simply fill and refill bowl from gallon. Change out like regular water. Can stay in bowl longer than one day without losing efficiency. Use in place of all water consumption for continued results.

Optimum results when started directly after professional dental cleaning. Consumption levels will vary depending on size of pet. Do not give to pet unless diluted in water.

Discontinue use if adverse reaction to this or any product occurs. Read ingredients before use in case of any known pre-existing hyper-sensitivity.

Please Note: You have received a full jug of concentrate. Proper fill line for formula is as filled.

Mixed household or dogs and cats can use either DOG or CAT Formulas.

### Helpful Hint to Start healthymouth™.

Most pets will start drinking healthymouth right away. If your pet does not, do not worry. Integrate healthymouth™ more slowly by exceptionally diluting it with additional regular water and each day add more healthymouth until you have reached the prescribed dose.

*Keep out of reach of children. Discontinue use if adverse reaction to this or any product occurs. Read ingredients before use in case of any known pre-existing hyper-sensitivity.*

#### DOG INGREDIENTS

Purified Water, Organic Glycerin, Organic Pomegranate, Organic Yucca Extract, Zinc Gluconate, Organic Blueberry, Natural Xanthan Gum, Organic Papain (Papaya Enzyme), Riboflavin (Vitamin B2), Ascorbic Acid (Vitamin C), Organic Clove Extract, Organic Cinnamon Extract, Chlorophyll, Sorbic Acid (natural preservative derived from mountain berries).

#### CAT INGREDIENTS

Purified Water, Organic Glycerin, Organic Pomegranate, Organic Yucca Extract, Zinc Gluconate, Organic Blueberry, Natural Xanthan Gum, Organic Papain (Papaya Enzyme), Riboflavin (Vitamin B2), Ascorbic Acid (Vitamin C), Salmon Oil (source of Omega-3), Organic Clove Extract, Organic Cinnamon Extract, Natural Taurine, Chlorophyll, Sorbic Acid (natural preservative derived from mountain berries).
